

Kelli Kelley
Hand to Hold
Austin, TX

Dear Kelli,

The members of the Board of Directors of the National Perinatal Association are proud to endorse the NICU Resource Library developed by Hand to Hold as a reliable, high-quality collection of educational handouts for parents of NICU babies. We know your team worked hard to ensure that the NICU Resource Library meets the standards for patient education and engagement of both The Joint Commission and the American Academy of Pediatrics.

Our members carefully reviewed all the documents contained in the Resource Library and found them to be clearly written, based on sound principles of best practices in neonatology, and engaging towards parents. In addition, the handouts are in alignment with principles of both Trauma-Informed Care and Family-Centered Care. Your Editorial Board of respected professionals in multiple disciplines as well as NICU parents has achieved a great feat of producing easily understandable informational resources that also serve to support parents through the emotionally challenging NICU experience. For this you are to be commended!

Sincerely,

Bernadette Hoppe
